What Are Live Blackjack Apps?

Live blackjack apps are devoted mobile applications-- or mobile-optimized sites-- offering table games hosted by expert human dealerships. Video cameras catch the action from several angles, and advanced Optical Character Recognition (OCR) technology translates the physical card data into digital info that appears quickly on the gamer's mobile screen. Gamers can position bets, chat with the dealer through text (and sometimes voice), and make basic gameplay decisions-- hit, stand, double down, or split-- with simply a tap of a finger.
