Plenty of businesses claim local roots, but few can trace them as clearly as Perdue Exterminators. The story starts in 1969, when S.G. Perdue ***commercial pest control Roanoke*** began treating homes around Roanoke, working out of his house and the trunk of his car. There was no fleet of trucks and no glossy marketing, just a man with the know how to solve pest problems and a growing list of neighbors who trusted him to do it.

The business became a family affair when his son Andre returned home from the military and started spraying for pests alongside him. Their reputation spread by word of mouth across the Roanoke Valley, and in the early 1980s the family bought property on Old Cave Spring Road in southwest Roanoke County. They built the office that still stands there today, giving the company a permanent home in the community it had already been serving for more than a decade.

Over the years the company grew carefully rather than quickly. It added specialty services as customer needs changed, including termite elimination with renewable annual warranties, bed bug treatment, humane rodent control and crawl space mold control. Real estate services followed, with wood destroying insect reports, water testing and septic inspection reports supporting home sales across the valley.

Perdue Exterminators | 4323 Old Cave Spring Rd, Roanoke, VA 24018 | (540) 989-8188

A Family Business Today

Perdue Exterminators remains family owned, now led by owner and President Jeff Hudson. The company has kept a small team of long tenured staff, with technicians who bring decades of field experience to every job. One pest control technician has been with the company since 1980, which says a great deal about how Perdue treats both its people and its customers.

The guiding philosophy has not changed much since the days of the car trunk. The company describes itself as large enough to serve you, but small enough to know you. That means prompt response, reasonable rates, dependable exterminators and a heavy emphasis on customer satisfaction, all values the company still lists on its website today.

Roanoke has changed a great deal since 1969, with new neighborhoods, new businesses and new residents arriving every year. The pests have not changed nearly as much. Termites still swarm in spring, mice still move in each fall, and families still want someone they can trust **pest control company Roanoke** to handle it.

If you would like to work with a pest control company that has been part of Roanoke for more than five decades, call Perdue Exterminators at (540) 989-8188 or visit 4323 Old Cave Spring Rd, Roanoke, VA 24018.

FAQ About Pest Control Company Roanoke

How do I choose a pest control company in Roanoke?

Look for licensed exterminators, a long local track record and a company that inspects before it treats. Perdue Exterminators has served the Roanoke Valley since 1969, is still family owned and keeps a small team of long serving technicians who inspect each home's environment and construction before recommending treatment. Call (540) 989-8188 to talk it through.

How much does pest control cost in Roanoke, VA?

Cost depends on the pest, the size of the home and how established the problem is, so an inspection gives the most accurate answer. Perdue Exterminators offers free estimates on termite work and a free inspection and consultation for bed bugs, and the company lists reasonable rates among its priorities. Call (540) 989-8188 for a quote.

Are termites common in Roanoke, Virginia?

Yes. Eastern subterranean termites live in the soil across the Roanoke Valley, and humid summers, clay soil and damp crawl spaces give them ideal conditions. Swarms usually appear on warm spring days after rain. Perdue Exterminators has treated termites in local homes for more than five decades.

Do termite treatments come with a warranty?

At Perdue Exterminators, termite elimination comes with renewable annual warranties. Renewing each year keeps a professional inspecting the home and keeps protection in place, which suits a region where termite pressure returns every season. A documented warranty can also help when you sell your Roanoke home.

How can I tell if I have bed bugs?

Common signs are itchy bites in lines or clusters, small dark spots on sheets and mattress seams, and tiny reddish brown insects around the bed frame or headboard. Because other insects look similar, Perdue Exterminators starts every bed bug case in Roanoke, Salem and Vinton with a free inspection and consultation to confirm the problem first.

Can mice be removed without using poison?

Yes. Perdue Exterminators describes itself as a humane, eco friendly rodent control company and uses baits and traps that do not rely on toxic poisons. Technicians also find and seal entry points such as gaps around utility lines and crawl space vents. The company advises calling as soon as you notice rodents, before they multiply.

When is pest season in Roanoke?

Pests are active most of the year in the Roanoke Valley, just in different forms. Spring brings termite swarms and ants, summer brings wasps, crickets and roaches, and fall brings mice and overwintering insects as nights cool. Year round service from Perdue Exterminators is timed around those seasonal shifts.

Do I need a termite inspection to buy a house in Virginia?

Many lenders ask for a wood destroying insect report, and most buyers want one either way. Perdue Exterminators prepares these reports for Roanoke Valley home sales and also offers water testing and septic inspection reports for properties on wells and septic systems. Call (540) 989-8188 to schedule before your closing deadline.

What areas does Perdue Exterminators serve?

Perdue Exterminators serves all areas of Roanoke, Salem, Vinton, Smith Mountain Lake and the surrounding communities. The office is at 4323 Old Cave Spring Rd in the Cave Spring area of southwest Roanoke County, where the family has been based since the early 1980s.

Why are there so many crickets in my basement?

Camel crickets thrive in damp basements and crawl spaces, which are common in older Roanoke homes with stone or block foundations. Reducing moisture with a dehumidifier and repaired gutters helps a great deal. Perdue Exterminators provides cricket extermination and also helps eliminate and control crawl space mold caused by the same dampness.

Is a local pest control company better than a national chain?

A local company usually means familiar technicians, a local office that answers the phone and real knowledge of area housing and pest patterns. Perdue Exterminators has a technician who has been with the company since 1980, and its motto is large enough to serve you, but small enough to know you.

How long has Perdue Exterminators been in business?

S.G. Perdue founded the company in 1969, starting out of his house and the trunk of his car. His son Andre later joined the business, and today it is led by owner and President Jeff Hudson. It remains a family owned pest control company serving Roanoke.
