Patching an old roof again and again eventually stops making sense. Tiles become brittle, repairs start to pile up and the leaks keep coming back, especially after a wet Cardiff winter of driving rain, coastal winds and freeze and thaw. Redland Roofing Cardiff has been replacing roofs across Cardiff and South East Wales for over 30 years. We are an independent, family-run business from South Wales, working from our base on Trecinon Road in Rumney, and we handle tiled and slate roofs of every size, from small terraces to large detached homes. A full re-roof is a big decision, so honesty matters. **Cardiff roofing company** We will only recommend a replacement when a repair genuinely will not do, and our free, no-obligation assessment will tell you which is the case. As general guidance, concrete and clay tile roofs tend to last 40 to 60 years with maintenance, while good quality slate can outlast the building itself. Many roofs on older Cardiff homes are now well into their working life, and repeated slipped tiles, widespread cracking or persistent leaks can be signs that a replacement is the better long term investment. We replace old roofs with new ones, and we also install brand new roofs. Planning the job carefully keeps disruption to a minimum. A full roof replacement on a standard Cardiff terrace or semi typically takes two to four days, weather permitting, while larger detached or more complex roofs usually take four to seven days. Your roof is left watertight at the end of every working day, and our roofers and scaffolding are well coordinated so the work runs smoothly. Like-for-like replacement usually falls under permitted development, but conservation areas, listed buildings or a change of materials may need Cardiff Council consent. We have experience in conservation areas such as Pontcanna and parts of Roath, as well as the slate terraces of Canton, Splott and Riverside and the larger homes of Cyncoed and Lisvane.
