The mechanics are straightforward yet exhilarating:

1. **The Buy-in:** All individuals settle on a case choice and contribute the overall cost of those cases from their website balance.
2. **The Open:** The virtual cases are opened round by round. Every individual sees what drops for everybody else in real-time.
3. **The Payout:** At the end of the battle, the total monetary worth of all skins dropped across all individuals is computed. The player (or team) who unboxed the highest overall value wins **all** the skins dropped in the match.
