The goal is to "squander" with your increased earnings before striking a mine.

1	1.04 x	1.13 x	1.25 x
3	1.14 x	1.49 x	2.50 x
5	1.27 x	2.10 x	5.80 x

2. The High-Risk "Sniper" Strategy

This includes setting the mine count to a high level (e.g., 15-20 mines) and intending for just one or two effective clicks. The multipliers here can be exponential, but the danger of losing the whole stake in a single click is very high.

3. The Martingale Variation

Some gamers try to use a modified Martingale strategy, where they double their bet after every loss. **Care:** This is extremely dangerous in Mines since one bad streak can [play Mystery Mines for real money](#) diminish a bankroll in seconds.
