Crash games are a modern design of online wagering and arcade-style entertainment. Unlike traditional video games with established outcomes dictated by complicated reel setups, crash games focus on a single, central mechanic: **an increasing multiplier.**

In a normal crash game:

1. Players position a wager before the round starts.
2. A multiplier begins at **1.00 x** and climbs up upward in real-time.
3. An object (in this case, an airplane) takes flight, and the multiplier increases the longer it stays in the air.
4. The item can "crash" or fly away at any unpredictable moment.
5. Gamers should squander *before* the crash to protect their jackpots increased by the existing rate. If the item crashes before a cash-out, the wager is lost.

Presenting Avia Masters
