What is the Aviator Game?

Established by Spribe, Aviator is a social multiplayer game coming from the "crash game" genre. Unlike traditional casino games where outcomes are identified by spinning reels or dealing cards, Aviator revolves around an intensifying multiplier represented by a rising plane.

The idea is easy:

1. **Place a bet** (or two bets concurrently) before the round begins.
2. **See the plane remove**, accompanied by a multiplier that starts at 1.00 x and increases rapidly.
3. **Squander** before the aircraft flies away (crashes).
4. If a gamer squanders successfully, they win their stake multiplied by the existing value. If the airplane flies away before they squander, the bet is lost.

The unpredictability of when the plane will fly away-- ranging from 1.00 x to in theory infinity-- develops a high-stakes environment driven by timing and nerve.
