Professional wedding photographers carry backup equipment and insurance for good reason, since a *Visit website* wedding day cannot be redone if something goes wrong. Annie Paige Photography's years of experience across more than one hundred weddings means systems are in place to handle equipment issues without disrupting coverage. This kind of preparation is part of what separates an experienced, established photographer from a lower cost, less experienced option.

Annie Paige Photography | 59 State St, Portland, ME 04101 | (207) wedding photographers Portland 841-4333

Couples researching photographers are encouraged to ask directly about backup plans before booking. Call (207) 841-4333 with any questions about equipment and preparedness.
