Live casino gaming has gone through a huge change over the last years, moving far beyond traditional table video games like blackjack and roulette. At the forefront of this revolution is Evolution Gaming's **Crazy Time**. Integrating the timeless mechanics of a cash wheel with contemporary augmented reality, multipliers, and interactive benefit rounds, it has caught the attention of countless gamers worldwide.

For those looking to comprehend how to bank on Crazy Time, browse its special features, and approach the video game with a sound method, this detailed guide covers everything from the basics to innovative betting approaches.

What is Crazy Time?

Crazy Time is a live online video game show hosted by a charming, live speaker. The entire video game revolves around a giant, vertically installed 54-segment wheel. The goal for the gamer is basic: predict which section the flapper will indicate when the wheel comes to a stop.

Nevertheless, what sets this video game apart from basic wheel games is the inclusion of a **Top Slot**-- a tiny two-reel fruit machine that spins simultaneously with the main wheel. The Top Slot appoints a random multiplier to either a number or a reward game on every spin, drastically increasing the potential payouts.

The Wheel Segments Breakdown

Before positioning any bets, players must understand the design of the wheel. The 54 sectors are divided into mathematical bets and 4 distinct perk rounds.

Wheel Segment Payment/ Function Number of Segments on Wheel Likelihood (%) **1** Pays 1 to 1 21 38.89% **2** Pays 2 to 1 13 24.07% **5** Pays 5 to 1 7 12.96% **10** Pays 10 to 1 4 7.41% **Cash Hunt** Benefit Round 2 3.70% **Pachinko** Perk Round 2 3.70% **Coin Flip** Reward Round 4 7.41% **Crazy Time** Bonus Round 1 1.85%

As the table reveals, the numerical segments appear much more often on the wheel, while the lucrative benefit rounds are rarer, making them the supreme target for gamers trying to find enormous wins.

The Four Exciting Bonus Rounds

The main appeal of Crazy Time lies in its 4 immersive reward games. When a player bets on a bonus offer sector and the wheel stops on it, they are transported to a separate, high-production-value benefit phase.

1. Coin Flip

- **Trigger:** Appears on 4 segments.
- **How it works:** A simple coin with a red side and a blue side is flipped by a machine. Each side gets a random multiplier before the flip. Whichever side lands face up wins the designated multiplier for the player.

2. Cash Hunt

- **Trigger:** Appears on 2 segments.

- **How it works:** Players exist with a massive screen showing 108 random multipliers concealed behind shooting gallery signs (such as a cactus, a target, or a sheriff's star). Gamers utilize a crosshair to select a target before the timer goes out, revealing the multiplier below it.

3. Pachinko

- **Trigger:** Appears on 2 sectors.
- **How it works:** A physical Pachinko wall featuring a grid of pegs is utilized. The host drops a puck from the top, and it bounces down arbitrarily till it lands in among the slots at the bottom, each including a multiplier. If the puck arrive at a "DOUBLE," all multipliers on the board double, and the puck is dropped again.

4. Crazy Time

- **Trigger:** Appears on 1 segment.
- **How it works:** Players enter a lively, virtual wonderland behind a red door, featuring an enormous 64-segment wheel. The player chooses one of three flappers (Green, Blue, or Yellow). The wheel spins, and whatever multiplier the selected flapper indicate is granted. Much like Pachinko, landing on "DOUBLE" or "TRIPLE" increases the values on the wheel for another spin.
