Generally, the process involves the following steps:

2. **Transferring:** Players deposit funds utilizing one of two main techniques:
 - **Skins:** Depositing CS2 weapon skins directly from their Steam stock to a bot managed by the site. The website values the skin, crediting the user's account balance with a comparable amount in site coins or GBP.
 - **Cryptocurrency/Fiat:** Depositing standard currency through charge card, e-wallets, or cryptocurrencies like Bitcoin, Ethereum, or GBPT.
3. **Playing:** Users use their balance to play video games or wager on matches.
