What is a CS: GO Case Battle?

A case battle is a multiplayer game mode hosted on third-party CS2 skin gaming and trading sites. Unlike opening cases alone in the game client, a case battle allows multiple players (normally in between two and 4) to open the specific very same set of cases simultaneously.

The rules are basic:

1. **Buy-in:** All individuals contribute a set amount of cases, funded by their website balance.
2. **The Drop:** The system opens the cases for all gamers round by round. Every product dropped is offered a real-world monetary worth based on Steam Market or third-party prices.
3. **The Winner:** At the end of the battle, the total worth of all skin drops for each player is calculated. The player with the highest overall worth wins **all** the products dropped in the match, including those of their opponents.

If you are fortunate, you can walk away with double, triple, or perhaps ten times your initial buy-in. If you lose, you lose the expense of the cases.
