Rather of enjoying a rocket or a plane ascend, players view the iconic bearded fisherman triggered in his boat to capture a massive fish. As the boat moves across the screen, a multiplier worth constantly increases, beginning at 1.00 x and in theory climbing without an upper limitation.

2. **The Boat Departs:** Once the betting window closes, the angler triggers on the water, and the multiplier begins ticking upward from 1.00 x.
3. **Cash Out:** Players need to keep track of the rising multiplier and struck the **"Cash Out"** button before the round quickly ends.

4. **The Catch (Partial Cash Out Feature):** Unlike lots of basic crash video games, Big Bass Crash includes an unique "Cash Out 50%" feature. This enables gamers to protect half of their profits while leaving the other half to ride for a greater multiplier.
5. **Round Ends:** The round concludes randomly when the line snaps or the boat stops. Anybody who hasn't squandered loses their active stake.
