

A persistent musty odor in the basement is one of the most common complaints JLB Basement Waterproofing & Foundation Repair LLC addresses for Des Moines area homeowners. This odor typically indicates mold or mildew growth somewhere in the basement, often in areas not immediately visible, such as behind finished walls or under flooring. JLB's team investigates the source of the odor as part of a comprehensive basement assessment, identifying the moisture issue responsible for the mold growth.

JLB Basement Waterproofing & Foundation Repair LLC | 97 Indiana Ave Suite #1, Des Moines, IA [Basement Waterproofing](#) 50314 | (515) 717-8560

Addressing the underlying moisture problem, rather than simply masking the odor, is essential for a lasting solution that prevents the mold and smell from returning. For a musty basement odor in Des Moines IA, contact JLB Basement Waterproofing & Foundation Repair LLC at (515) 717-8560.
