1. **Place a Bet:** Players pick their preferred stake within the wagering window before the round starts.
2. **The Round Begins:** The angler triggers on his boat, and the multiplier starts at 1.00 x, steadily ticking up.
3. **The Cashout Decision:** Players should decide the precise moment to strike the "Cash Out" button. Doing so locks in the current multiplier used to their initial stake.
4. **The Crash:** At a random point identified by a Provably Fair Random Number Generator (RNG), the game ends abruptly (the "crash"). If a gamer has not cashed out by this point, they lose their bet.
