2. **The Climb:** As the multiplier rises, the possible payout grows.
3. **The Crash:** At any randomized second, the game "crashes."
4. **The Goal:** Players need to cash out *before* the crash takes place. If they cash out effectively, they win their bet increased by the current figure. If the game crashes before they squander, they lose their stake.

- **Auto-Cashout:** Players can set a pre-determined multiplier (e.g., 2.00 x) where the game immediately cashes out their bet if the multiplier reaches that limit.
- **Double Betting:** Many crash video games enable gamers to put 2 independent bets on the very same round, enabling split strategies (e.g., cashing out one bet early and letting the other trip).
