The Mechanics Behind the Magic: Provably Fair Technology

Aviator utilizes **Provably Fair**, a cryptographic innovation that ensures 100% fairness of the game result.

- The result of each round (the multiplier at which the airplane flies away) is not generated on the casino's servers alone.
- Instead, it is created by combining the server seed and the seed of the first three players in the round.
- Gamers can examine and confirm the fairness of every round in the game history by clicking on the small green guard icon.

Secret Features That Enhance the Experience

- **Live Statistics and History:** The user interface shows a running history of previous multipliers, along with a leaderboard showing the most significant wins of the day, month, and year.
- **Rain Promo:** In-game chat features sometimes trigger "Rain" benefits, dropping complimentary bets into the chat for gamers to claim.
