What is a CS: GO Case Battle?

A case battle is a multiplayer video game mode hosted on third-party CS2 skin gambling and trading websites. Unlike opening cases alone in the video game client, a case battle enables numerous players (generally between 2 and four) to open the precise same set of cases at the same time.

The rules are simple:

1. **Buy-in:** All participants contribute a set amount of cases, moneyed by their site balance.
2. **The Drop:** The system opens the cases for all players round by round. Every product dropped is offered a real-world monetary worth based on Steam Market or third-party rates.
3. **The Winner:** At the end of the battle, the total value of all skin drops for each player is computed. The gamer with the greatest total value wins **all** the products dropped in the match, including those of their opponents.

If you are fortunate, you can stroll away with double, triple, or perhaps 10 times your initial buy-in. If you lose, you lose the expense of the cases.
