- *Caution:* This requires a substantial bankroll and can rapidly tire funds if a long losing streak happens on high-risk settings.

2. The Steady Grind (Low Risk, High Rows):

- *How it works:* Setting the threat to "Low" and the rows to "12-- 16." This reduces massive losses while giving the player a steady stream of small wins, keeping them in the game longer with a possibility of unintentionally clipping a good multiplier on the edges.

3. Flat Betting with Auto-Play:

- *How it works:* Setting a strict spending plan, choosing a comfortable bet size, and letting the auto-play function run for a set variety of rounds. This eliminates psychological decision-making from the process.
