A case battle is a multiplayer game mode hosted on third-party CS2 skin betting and trading websites. Unlike opening cases alone in the video game customer, a case battle permits several gamers (typically between 2 and 4) to open the exact very same set of cases simultaneously.

The rules are basic:

1. **Buy-in:** All participants contribute a set quantity of cases, funded by their site balance.
2. **The Drop:** The system opens the cases for all players round by round. Every item dropped is provided a real-world monetary value based upon Steam Market or third-party pricing.
3. **The Winner:** At the end of the battle, the total value of all skin drops for each gamer is computed. The gamer with the greatest total worth wins **all** the products dropped in the match, including those of their opponents.

If you are lucky, you can stroll away with double, triple, or even ten times your preliminary buy-in. If you lose, you lose the cost of the cases.
