

Whites Dental Marble Arch offers Saturday appointments from 10am to 2pm, giving patients an option for urgent dental care over the weekend when many other practices [emergency dentist near me](#) are closed. Weekend dental emergencies, such as sudden toothache or a broken tooth, can be particularly stressful given limited access to care, making the practice's Saturday hours a valuable option. Patients with a weekend dental emergency are advised to call as early as possible on Saturday morning to check availability within the practice's shorter weekend hours.
