December is peak trip season: hot, busy and highly-priced, with camps booked months forward. The short rains taper off and the reserve is efficient and photographic.

January settles right into a quieter rhythm. Rates ease, roads dry out, and predator sightings dwell reliable for the reason that resident prey remains.

New Year week behaves like a separate height, so count on minimum evening remains and top class fees. If you desire festive weather with https://masaimarasafaripackages.net/4-day-safari/ no the crowds, late January is the more effective wager. Month by using month comparisons are at %LINK%.
