What is Crazy Time?

Launched in June 2020, Crazy Time is a live online game reveal constructed around a massive, vibrantly colored, 52-segment mechanical wheel. Operated by a charming live presenter in a lively, studio setting, the video game combines simple wagering mechanics with 4 distinct, extremely unforeseeable perk video games.

Unlike conventional gambling establishment games where players bet your home in a singular environment, Crazy Time promotes a shared community experience. Thousands of gamers from around the globe can take part in the very same video game round, chat with one another, and celebrate wins together in real-time.

The Core Wheel Segments

Before each spin, gamers position bets on where they believe the wheel will stop. The wheel consists of numbers that pay even cash or better, as well as sectors that trigger the bonus rounds.

Wheel Segment Payout/ Action Probability (Approximate) **1** Pays 1 to 1 ~ 39.23% (21 sections) **2** Pays 2 to 1 ~ 25.00% (13 segments) **5** Pays 5 to 1 ~ 13.46% (7 sections) **10** Pays 10 to 1 ~ 7.69% (4 sectors) **Coin Flip** Activates Bonus Round ~ 7.69% (4 segments) **Cash Hunt** Sets Off Bonus Round ~ 3.85% (2. sections) **Pachinko** Activates Bonus Round ~ 3.85% (2 sections) **Crazy Time** Sets Off Bonus Round ~ 1.92% (1 sector)

The Top Slot Feature

Adding an additional layer of anticipation to every round is the **Top Slot**, a two-reel mini fruit machine located straight above the primary money wheel.

As the live host encourages gamers to position their bets, the Top Slot spins simultaneously with the primary wheel. It produces:

1. **A Bet Spot:** One of the wheel numbers or perk video games.
2. **A Multiplier:** A multiplier worth varying from 2x up to 50x.

If the main wheel stops on the specific bet area that aligns with the Top Slot's choice, the multiplier is used to that ***bet on Crazy Time*** win. For basic numbers, the payout is multiplied. For perk rounds, the multipliers use to the initial worths inside the perk video game, setting the stage for potentially massive payments.

The Four Immersive Bonus Rounds

The real heart and soul of Crazy Time are its four interactive bonus rounds. Whenever the wheel arrive at a bonus offer sector, all players who placed a bet on that specific segment get to take part.

+ ----------+.| CRAZY TIME BONUS ROUNDS |+ ----------+.[Coin Flip]-- >> Simple 50/50 Multiplier Draw.[Money Hunt]-- >> Interactive Shooting Gallery (108 areas).[Pachinko]-- >> Drop Puck Down a Pegged Wall.[Crazy Time]-- >> Giant Virtual Wheel with Massive Multipliers.

1. Coin Flip

The most basic and most frequent bonus offer round. The host steps up to a device that turns a coin with a **Red** side and a **Blue** side.

- Before the flip, random multipliers are appointed to each side of the coin.
- The coin is automatically turned, and whichever side lands face-up determines the winning multiplier for the participating gamers.

2. Money Hunt

This transforms the screen into an enormous interactive shooting gallery including a screen with **108 random multipliers**.

- The multipliers are concealed behind numerous signs (like a cactus, target, chef's hat, etc) and then shuffled.
- Gamers are offered a crosshair to objective and fire at a sign of their option before the timer runs out.
- As soon as time expires, all signs reveal their concealed multipliers, and gamers get the multiplier representing the target they shot.

3. Pachinko

Inspired by the conventional Japanese arcade game, this bonus round happens in front of a large physical wall filled with physical pegs.

- At the bottom of the wall are different multiplier zones, together with a special **" DOUBLE"** zone.
- The host drops a puck from the top of the wall. As the puck bounces arbitrarily down through the pegs, it ultimately lands in among the multiplier slots at the bottom.
- If the puck lands on "DOUBLE," all multipliers on the board are doubled, and the host drops the puck once again for an even larger reward.

4. Crazy Time

The ultimate reward round takes gamers behind a red door into a vibrant, virtual, Alice-in-Wonderland-style world including a gigantic 64-segment wheel.

- Gamers should choose among three flappers (Green, Blue, or Yellow) at the top of the wheel.
- The host presses a huge red button to spin the wheel.

- The wheel features massive multipliers, "DOUBLE," and "TRIPLE" segments. If a flapper lands on a double or triple, all multipliers on the wheel are multiplied accordingly, and the wheel spins again. This can repeat up until a staggering **20,000 x max multiplier** is reached.

Methods and Approaches for Players

Since Crazy Time is eventually a game of chance controlled by Random Number Generators (RNGs) and physical mechanics, no method can guarantee a win. Nevertheless, players usually approach the game utilizing a few distinct styles:

- **The Low-Risk Approach:** Focusing heavily on the number sectors (1 and 2) which make up the large majority of the wheel. This approach prioritizes smaller sized, more regular payments to extend gameplay time.
- **The Bonus Hunter Strategy:** Placing smaller sized wagers specifically on the 4 reward rounds (Coin Flip, Cash Hunt, Pachinko, Crazy Time). This technique accepts regular dry spells in exchange for the opportunity to take part in the game's highest-paying rounds.
- **The Balanced Approach:** Spreading bets throughout both numbers and perk rounds to ensure a mix of consistent gameplay and access to high-value reward features.

Secret Tips for Enjoying Crazy Time Responsibly

As with any kind of online entertainment including betting, maintaining a healthy mindset is necessary. Here are a couple of finest practices:

- **Set a Budget:** Decide on a repaired total up to spend before beginning a session, and never chase losses.
- **Understand the RTP (Return to Player):** Different segments carry various theoretical RTP percentages (typically varying from approximately 94% to 96% depending upon the bet type).
- **Treat it as Entertainment:** View wagers as the expense of admission for an interactive home entertainment experience instead of a reliable method to make money.
