Confirmation Method Description Security Level **Electronic Verification (E-TRF)** Universities and migration departments access ratings directly through a safe and secure online website managed by IELTS administrators. Incredibly High **Institution Portal** Acknowledged organizations have accounts to log in and validate the TRF number and prospect information quickly. High **Handbook Verification** If discrepancies occur, organizations get

in touch with test centers straight to cross-reference candidate photos, signatures, and biometric data. Moderate to High

- **Blacklisting:** Once a candidate is flagged for submitting created documents, their details are frequently shared throughout international databases, making future applications to other nations or organizations nearly difficult.
- **Financial Loss:** Online fraudsters often take payment (often via cryptocurrency, wire transfers, or untraceable digital wallets) and disappear without delivering any files, or they send out poorly printed forgeries that fail standard visual evaluations.
