FAQ About Dumpster Rental

What size dumpster do I need for a garage cleanout?

For a garage cleanout, a 10 to 15 cubic yard dumpster is typically sufficient. It provides enough space for large items like old furniture, bicycles, and debris without being overly large. Consider your specific items and the volume they will occupy to determine the best size.

What can you put in a dumpster?

You can generally put household debris, construction materials, yard waste, and furniture in a dumpster. However, hazardous materials like batteries, chemicals, and electronics are not allowed. Always check with your rental company for a complete list of prohibited items.

How long can I keep a rented dumpster?

Most dumpster rental companies in Denver allow you to keep a rented dumpster for about 7 to 14 days. However, this can vary based on your agreement. If you need more time, discuss options with your provider to avoid late fees.

Do I need a permit for a dumpster in Denver?

Yes, if you plan to place the dumpster on a public street or sidewalk, a permit is usually required in Denver. Check with the local authorities for specific regulations and requirements to ensure compliance before renting a dumpster.

Choosing the Right Size Dumpster

When it comes to choosing a dumpster, selecting the right size is crucial. At Ranger Dumpster Rental, we offer a range of sizes from 20-yard options to accommodate any size job. Are you planning a small cleanout job? A 10-yard dumpster might be perfect. For larger construction projects, a 30-yard dumpster can handle significant amounts of waste. Our team is prepared to help you identify the best size for your project, ensuring you don't waste residential dumpster Denver money or run out of space halfway through.

Easy Process for Dumpster Rental in Denver
