What is the Aviator Game?

At its core, Aviator is a social multiplayer casino game coming from the "crash game" genre. [ke.bitz](#) Unlike standard casino games where players spin reels or bet a dealer in real-time cards, Aviator features a quickly ascending aircraft.

As the airplane takes off, a multiplier coefficient begins to increase-- starting at 1.00 x and potentially reaching infinity. The goal is deceptively simple: gamers place a bet before the round begins, watch the aircraft ascend, and hit the **"Cash Out"** button before the aircraft randomly flies away. If a player effectively squanders before the crash, they win their initial stake multiplied by the present multiplier. If the plane flies away (crashes) before they cash out, the bet is lost.
